

Entrare in Gmail e cliccare sul menu Configurazione ACCOUNT

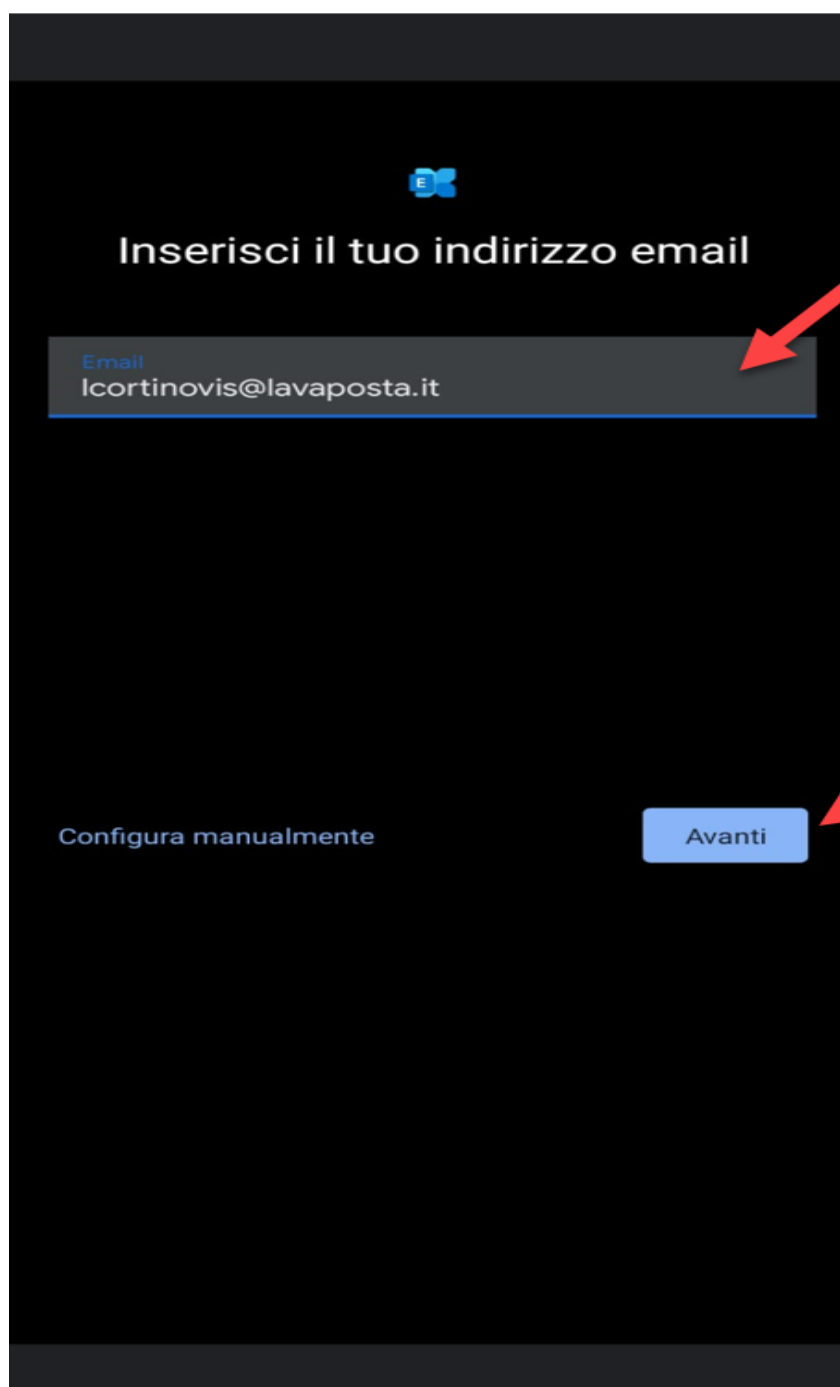

Selezionare Aggiungi un altro Account

Scegliere come modalità Exchange e Office 365

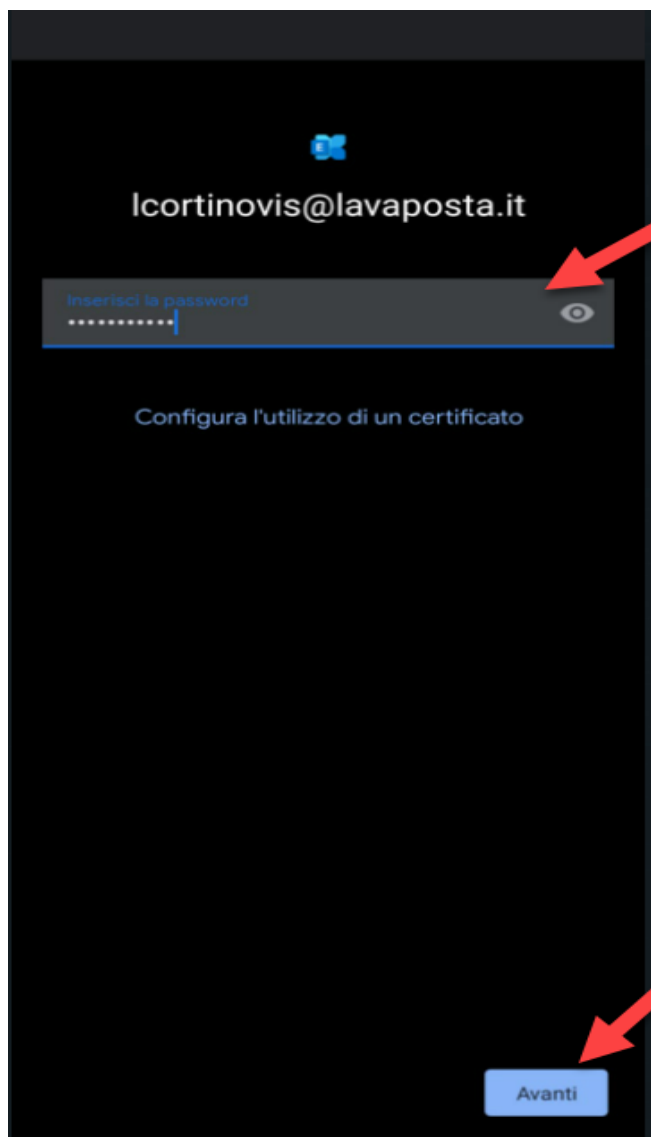

Inserire il proprio indirizzo e-mail

The screenshot shows a dark-themed mobile interface for email configuration. At the top center is a blue envelope icon with a white 'E'. Below it, the text "Inserisci il tuo indirizzo email" is displayed in white. A grey input field contains the email address "lcortinovic@lavaposta.it" in white text, with a blue underline. Below the input field, there are two options: "Configura manualmente" on the left and a blue button labeled "Avanti" on the right. Two red arrows point to the input field and the "Avanti" button respectively.

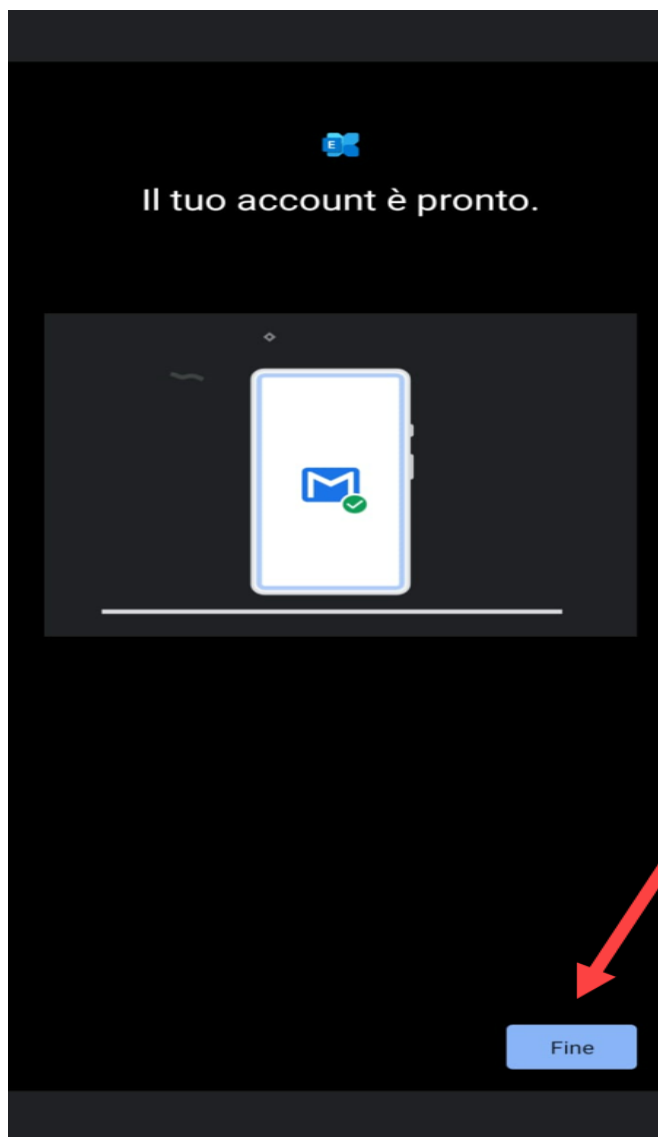

Inserire la password

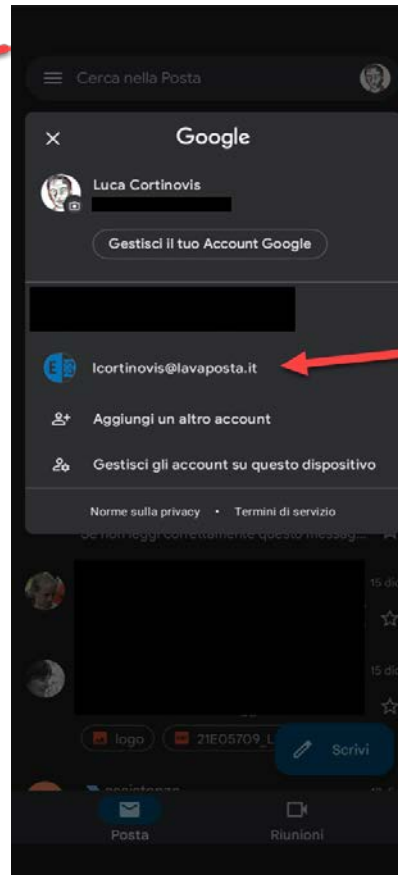

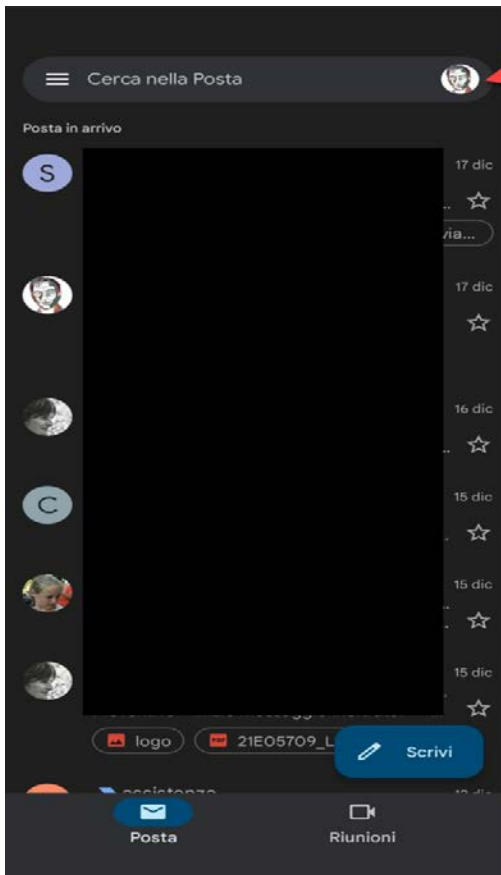

Nel campo **SERVER** inserire **zimbra.ildato.it**

The image shows a dark-themed mobile application interface for account configuration. It is divided into two main sections: 'DATI DELL'ACCOUNT' and 'IMPOSTAZIONI SERVER'.
Under 'DATI DELL'ACCOUNT', there are fields for 'Email' (l cortinavis@lavaposta.it), 'Password' (masked with dots), and 'Certificato client' (Nessuno) with a 'SELEZIONA' button.
Under 'IMPOSTAZIONI SERVER', there are fields for 'Dominio/nome utente' (l cortinavis@lavaposta.it), 'Server' (zimbra.ildato.it), and 'Porta' (443). The 'Server' field is highlighted with a blue border and a red arrow points to it from the right.
Below these fields, the 'Tipo di sicurezza' is set to 'SSL/TLS'. At the bottom, the 'ID dispositivo mobile' is shown as 'androidc990976316'. A blue 'Avanti' button is located at the bottom right, with a red arrow pointing to it from the right.

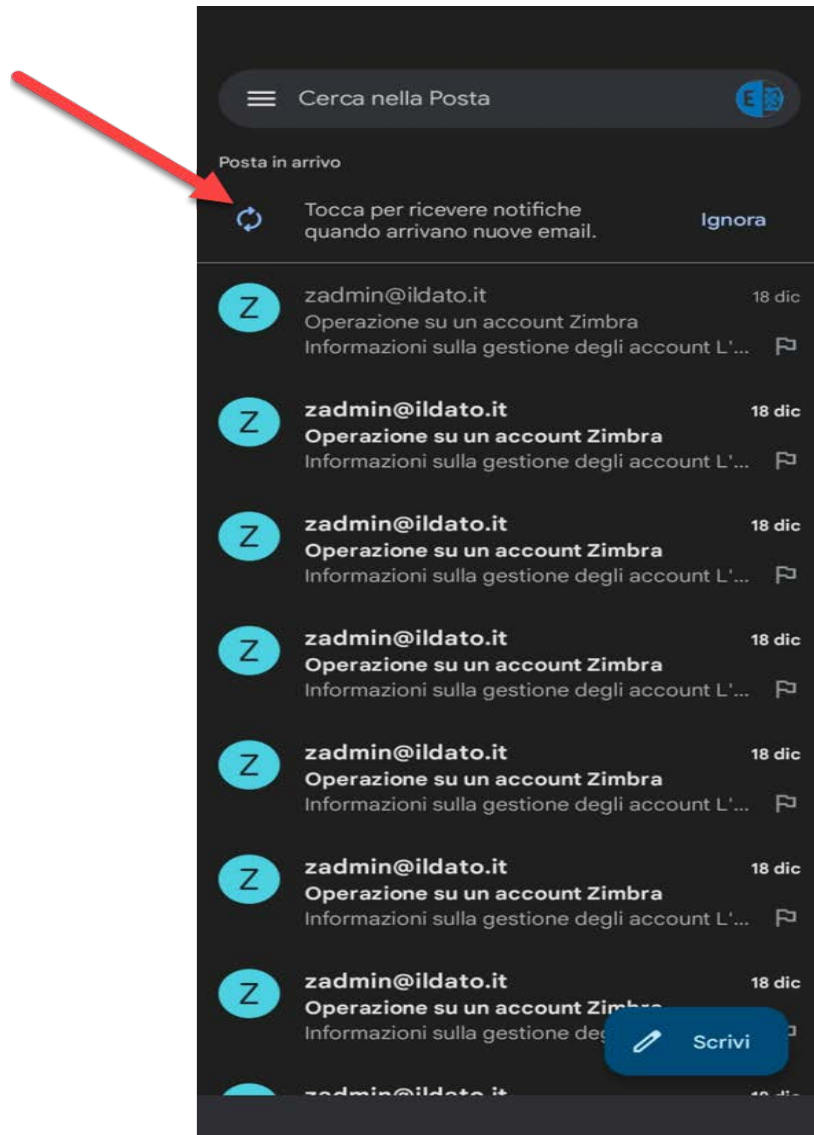

L'account è pronto, premere su Fine

Selezionare ora l'account predefinito. Se è il primo account creato saltate questo passaggio

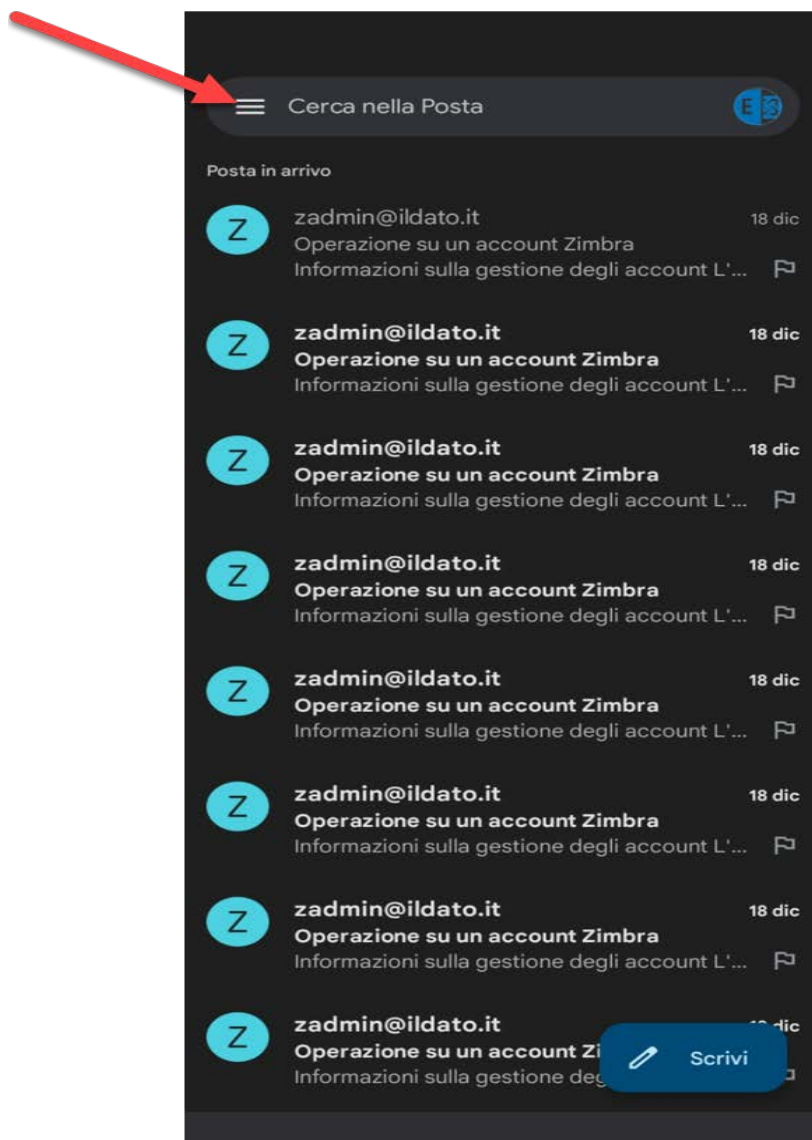

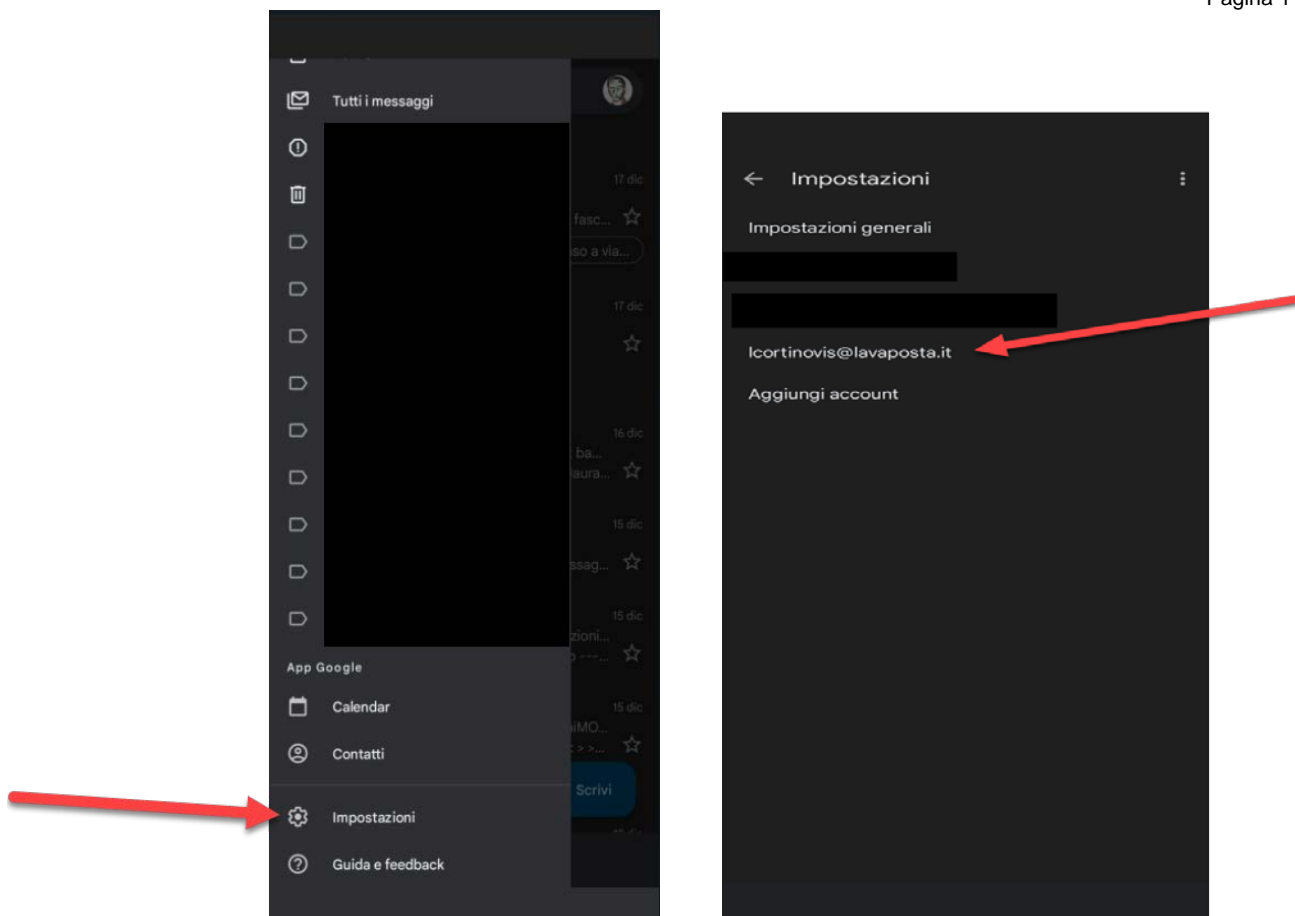

Se richiesto accettate di ricevere le notifiche

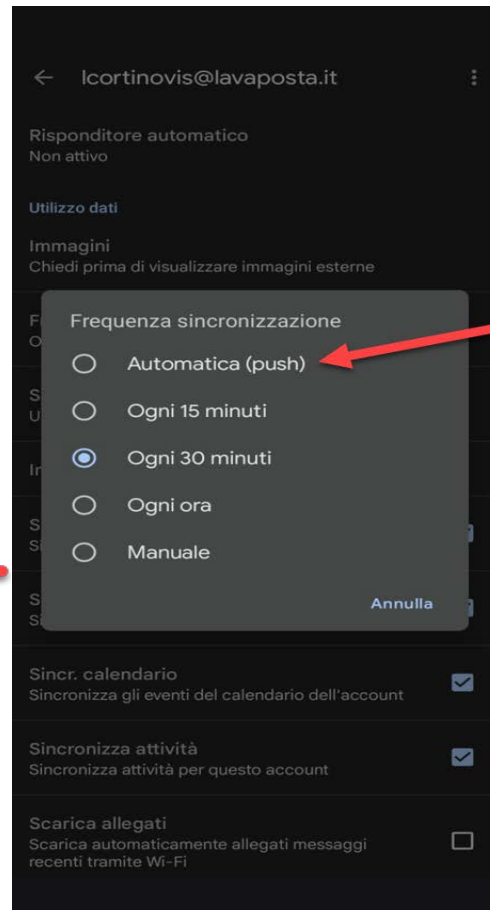

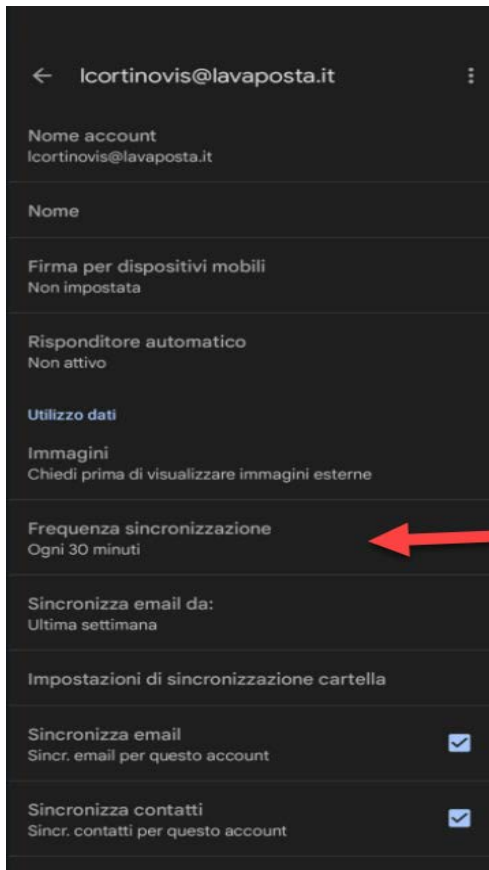

Potete ora settare la modalità di ricezione delle e-mail, inserire la firma nei messaggi in uscita, inserire il fuori ufficio ecc.

Per farlo, selezionate il menu impostazioni

E' molto importante che venga impostata la frequenza di sincronizzazione su **"push"**
Tutte le altre configurazioni sono a vostra discrezione
